01 · CHANNEL SEPARATORS

Everything on a **light box** in this guide can be selected and copied. Put a separator between the emoji and the name: **emoji + separator + name**, no spaces. Discord turns normal spaces into dashes, so the separator does the spacing for you.

Spaced separators RECOMMENDED

These are wide characters, so Discord shows a gap on both sides automatically.

`•` `｜` `❘` `：` `❙` `┇`

📢 • announcements
📢 ｜ announcements
📢 ❘ announcements
📢 ： announcements
📢 ❙ announcements
📢 ┇ announcements

Compact separators

These sit right next to the emoji and name. Good for a tight, minimal look.

`-` `•` `·` `˙` `⦚` `›` `»` `⟫`
`ʒ` `ˏ` `⋆` `✦` `⊹` `//`

02 · CATEGORY STYLES

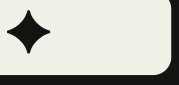

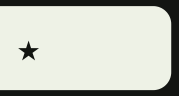

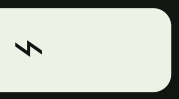

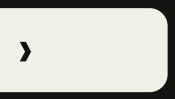

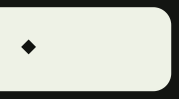

Copy the style and replace **NAME** with your category name. The grey bar shows how it looks in the Discord sidebar. Discord keeps your capitals as you type them, so **Community** and **COMMUNITY** both work.

◇ Community ˅ ◇ NAME	── Community ── ˅ ── NAME ──	✦ Community ✦ ˅ ✦ NAME ✦	╭ Community ╮ ˅ ╭ NAME ╮
⌁ Community ˅ ⌁ NAME	【 Community 】 ˅ 【 NAME 】	▸ Community ˅ ▸ NAME	⦃ Community ⦄ ˅ ⦃ NAME ⦄
┊ Community ˅ ┊ NAME	◇ Community ˅ ◇ NAME	// Community ˅ // NAME	⌜ Community ⌟ ˅ ⌜ NAME ⌟
⊹ Community ⊹ ˅ ⊹ NAME ⊹	❖ Community ˅ ❖ NAME	⋆ Community ⋆ ˅ ⋆ NAME ⋆	⟦ Community ⟧ ˅ ⟦ NAME ⟧
▰▱ Community ˅ ▰▱ NAME	⸗ Community ˅ ⸗ NAME	☆ Community ˅ ☆ NAME	─ Community ─ ˅ ─ NAME ─

Pick one style and use it for every category. Mixing styles makes a server look messy.

03 · ROLE SYMBOLS

Add one symbol in front of a role name. Use **different symbols for different tiers**, for example ✦ for leaders, ✧ for staff, ◇ for special roles.

 ✦ Moderator	 ✧ Moderator	 ◇ Moderator	 ◇ Moderator
 ◆ Moderator	 ◈ Moderator	 ❖ Moderator	 ⊹ Moderator
 ⋆ Moderator	 ✶ Moderator	 ✷ Moderator	 ✺ Moderator
 ⌁ Moderator	 // Moderator	 › Moderator	 ♡ Moderator
 ☆ Moderator	 ✯ Moderator	 ✿ Moderator	 ❀ Moderator
 ⬩ Moderator	 ◆ Moderator	 ◈ Moderator	 ✧ Moderator

> Avoid symbols like ★ ♦ ✔ that some phones turn into colorful emoji. Everything on this page stays a clean text symbol.

04 · DIVIDERS & BULLETS

Dividers split long messages and embeds into sections. Bullets make clean lists.

05 · BARS & BRACKETS

Bars show progress, levels and ratings in text. Brackets frame titles and names.

▰▰▰▱▱ progress	■■■□□ levels	●●●○○ ratings
⬢⬢⬢⬡⬡ tiers	★★★☆☆ reviews	▮▮▮▯▯ stats

Brackets

⌜ text ⌟	〖 text 〗	【 text 】	〔 text 〕	⟦ text ⟧
⟨ text ⟩	⦃ text ⦄	(text)	《 text 》	⟪ text ⟫

Combine them: **【 RULES 】**, **Level ▰▰▰▱▱ 60%**, **⌜ ✦ Staff Team ✦ ⌟**

06 · INVISIBLE SPACERS

Discord removes normal spaces at the start and end of names. The **Braille blank** is an invisible character Discord keeps, so you can use it to center role dividers and space out names.

Single blank

Braille blank (U+2800). Select the highlighted box and copy.

3 blanks

Braille blank (U+2800). Select the highlighted box and copy.

5 blanks

Braille blank (U+2800). Select the highlighted box and copy.

Ready-made divider roles

Copy a whole line and paste it as a role name. Left: the text to copy. Right: how it looks on a profile.

STAFF	STAFF
ROLES	ROLES
INTERESTS	INTERESTS
PRONOUNS	PRONOUNS
AGE	AGE
COLORS	COLORS
NOTIFICATIONS	NOTIFICATIONS
SPECIAL	SPECIAL
BOTS	BOTS

If a copied line pastes without the gaps, your PDF reader dropped the invisible characters. Open **spacers_backup.txt** in this folder and copy from there.
